

Countries' Risk Classification

Countries' Risk Classification

amfori BSCI

The risk classification of countries relies on the Worldwide Governance Indicators, being aggregate indicators of governance 1996-2020. These determine the level of risks related to governance in sourcing countries.

Governance Indicators

There are 6 dimensions of governance identified by the World Bank:

- 1.** Voice and Accountability (VA) – capturing perceptions of the extent to which a country's citizens are able to participate in selecting their government, as well as freedom of expression, freedom of association and a free media.
- 2.** Political Stability and Absence of Violence/Terrorism (PV) – capturing perceptions of the likelihood that the government will be destabilized or overthrown by unconstitutional or violent means, including politically-motivated violence and terrorism.
- 3.** Government Effectiveness (GE) – capturing perceptions of the quality of public services, the quality of the civil service and the degree of its independence from political pressures, the quality of policy formulation and implementation, and the credibility of the government's commitment to such policies.
- 4.** Regulatory Quality (RQ) – capturing perceptions of the ability of the government to formulate and implement sound policies and regulations that permit and promote private sector development.
- 5.** Rule of Law (RL) – capturing perceptions of the extent to which agents have confidence in and abide by the rules of society and in particular the quality of contract enforcement, property rights, the police, the courts, as well as the likelihood of crime and violence.
- 6.** Control of Corruption (CC) – capturing perceptions of the extent to which public power is exercised for private gain, including both petty and grand forms of corruption, as well as 'capture' of the state by elites and private interests.

Full interactive access to the aggregate indicators and the underlying source data, is available at www.govindicators.org

Worldwide Governance Indicators update incorporates revisions to data for previous years, and so this data release supersedes data from all previous releases.

The 2020 Worldwide Governance Indicators were published by the World Bank on the 21st September 2021 and extracted on the 23rd September 2021 for use in this Countries' Risk Classification.

For the purpose of amfori BSCI, countries are classified in two different categories:

Risk countries: Countries with WGI average rating between 0-60 or three or more individual dimensions rated below 60.

Low-risk countries: Countries with WGI average rating higher than 60 and no more than two individual dimensions rated below 60.

An additional call-out is made for **Most Severe Risk countries:** countries with WGI average rating below 3 or at least two individual dimensions rated below 1.

This classification supports amfori BSCI participants in their human rights' due diligence approach to define their priorities in terms of monitoring, capacity building and stakeholder engagement. An additional tool, the Due Diligence Tool is available to provide more specific information on sustainability issues, which are not reflected in the classification below.

It is up to each amfori BSCI participant to define its own due diligence approach. amfori shall not be held responsible for any action or omission deriving from the way amfori BSCI participants decide to use this classification.

Validity

This countries' risk classification version 2022 enters into force on 1 January 2022. It overrules amfori BSCI list of Risk countries version 2021 and will remain valid until the next version.

Risk Countries

| Country | Overall risk | Voice and Accountability | Political Stability & Absence of Violence | Government Effectiveness | Regulatory Quality | Rule of Law | Control of Corruption |
|----------------------------------|--------------|--------------------------|---|--------------------------|--------------------|-------------|-----------------------|
| | 2020 | 2020 | 2020 | 2020 | 2020 | 2020 | 2020 |
| Afghanistan | 6.8 | 19.32 | 0.47 | 5.29 | 8.17 | 2.40 | 5.29 |
| Albania | 47.0 | 51.21 | 49.53 | 48.08 | 60.58 | 40.87 | 31.73 |
| Algeria | 21.4 | 18.36 | 17.45 | 33.65 | 9.13 | 21.63 | 28.37 |
| Angola | 19.1 | 25.60 | 26.89 | 11.06 | 15.87 | 16.83 | 18.27 |
| Argentina | 45.7 | 65.70 | 48.58 | 43.27 | 31.73 | 34.62 | 50.00 |
| Armenia | 49.1 | 49.28 | 25.94 | 48.56 | 61.06 | 51.92 | 57.69 |
| Azerbaijan | 25.7 | 5.80 | 21.70 | 44.71 | 39.90 | 25.96 | 16.35 |
| Bahrain | 49.4 | 9.18 | 25.47 | 68.27 | 73.08 | 67.31 | 53.37 |
| Bangladesh | 21.1 | 26.57 | 16.04 | 20.19 | 16.35 | 30.77 | 16.83 |
| Belarus | 24.2 | 8.70 | 21.23 | 23.08 | 27.88 | 16.35 | 48.08 |
| Belize | 42.7 | 62.32 | 62.26 | 27.88 | 33.65 | 23.08 | 47.12 |
| Benin | 38.6 | 42.51 | 29.72 | 41.35 | 38.94 | 24.52 | 54.33 |
| Bolivia | 25.3 | 43.48 | 28.77 | 30.77 | 12.02 | 12.02 | 24.52 |
| Bosnia and Herzegovina | 32.4 | 36.71 | 27.83 | 15.38 | 42.31 | 43.27 | 28.85 |
| Brazil | 43.9 | 56.52 | 32.08 | 36.54 | 46.15 | 48.08 | 43.75 |
| Bulgaria | 55.8 | 56.04 | 60.85 | 50.48 | 69.71 | 51.44 | 46.15 |
| Burkina Faso | 33.3 | 39.13 | 8.49 | 26.92 | 37.50 | 36.54 | 51.44 |
| Burundi | 8.5 | 6.28 | 10.38 | 10.10 | 12.50 | 6.73 | 4.81 |
| Cambodia | 25.0 | 12.56 | 41.04 | 37.98 | 29.81 | 17.79 | 11.06 |
| Cameroon | 14.6 | 15.46 | 8.96 | 18.27 | 19.71 | 12.50 | 12.50 |
| Central African Republic | 6.9 | 14.98 | 2.83 | 3.85 | 5.77 | 4.33 | 9.62 |
| Chad | 8.8 | 10.63 | 10.85 | 7.21 | 11.06 | 7.21 | 5.77 |
| China | 45.2 | 4.83 | 37.74 | 72.60 | 50.00 | 52.88 | 52.88 |

Most Severe Risk Countries

The most severe Risk Countries are countries with a WGI average rating below 3 or at least two individual dimensions rated below 1.

| Country | Overall risk | Voice and Accountability | Political Stability & Absence of Violence | Government Effectiveness | Regulatory Quality | Rule of Law | Control of Corruption |
|-------------|--------------|--------------------------|---|--------------------------|--------------------|-------------|-----------------------|
| | 2020 | 2020 | 2020 | 2020 | 2020 | 2020 | 2020 |
| Eritrea | 5.4 | 0.48 | 14.62 | 4.33 | 0.48 | 5.29 | 7.21 |
| North Korea | 7.7 | 0.00 | 33.49 | 6.73 | 0.00 | 4.81 | 1.44 |
| Somalia | 1.8 | 2.90 | 1.89 | 0.96 | 2.40 | 0.48 | 2.40 |
| South Sudan | 1.6 | 2.42 | 3.30 | 0.00 | 1.92 | 1.92 | 0.00 |
| Syria | 1.5 | 1.45 | 0.00 | 2.88 | 3.37 | 0.96 | 0.48 |
| Yemen | 2.5 | 4.35 | 0.94 | 0.48 | 3.85 | 3.37 | 1.92 |

Most Severe Risk Countries present a higher risk of human rights violations perpetrated against workers. At the same time, extremely poor governance and political instability may hinder amfori members from pursuing reasonable due diligence in their supply chains in those countries: monitoring and capacity building activities might not be possible.

amfori members should aim to:

- Assess if they have direct or indirect business linkages with Most Severe Risk Countries (e.g. for specific components or commodities);
- Consult the Country Due Diligence Tool and identify critical risks on social, environmental and trade issues;
- Alert sourcing department and/or suppliers on the critical risks and collect information on any risk prevention practices in place;
- If need arises, contact the amfori Secretariat for support on policy advocacy and stakeholder engagement.

Risk Classification Changes

Eight (8) countries have seen a change in its classification and no countries have seen significant change in either their overall rating or in individual dimensions without a change in classification. Two (2) countries have gone from risk to low risk countries, one (1) country has gone from low risk to risk, two (2) countries have gone from severe risk to risk, one (1) country has gone from risk to severe risk and two (2) country has gone from no data to low risk.

Countries that went from Low Risk to Risk

Bulgaria

Bulgaria has gone from a low risk to a risk country with a score of 55.8 in 2021 from 61.4 in 2020. All indicators have shown decline, particularly voice and accountability and government effectiveness, according to the World Bank Indicators.

Countries that went from Risk to Low Risk

Grenada

Grenada has gone from risk country to a low risk country with a score of 63.2 in 2021 from 60.8 in 2020, but with three indicators below 60. All indicators have shown improvement, particularly Rule of Law which has increased to 61.5 from 59.62, according to the World Bank Indicators.

Seychelles

Seychelles has gone from risk country to a low risk country with a score of 65.8 in 2021 from 64.6 in 2020, but with three indicators below 60. All indicators have shown improvement, particularly Voice and Accountability which has increased to 60.4 from 58.13, according to the World Bank Indicators.

Countries that went from Risk to Severe Risk

Eritrea

Eritrea has gone from a risk to a severe risk country with a score of 5.4 in 2021, with two indicators below one from 6.2 in 2020. All indicators have shown decline, particularly voice and accountability and regulatory quality which are rated 0.5, according to the World Bank Indicators

Countries that went from Severe Risk to Risk

Venezuela

Venezuela has gone from a severe risk to a risk country with a score of 4.1 with only one indicator less than 1, from 4.8 with two indicators less than 1 in 2020. All indicators have shown decline, except for Regulatory Quality which has increased from 0.48 to 1.4, according to the World Bank Indicators

Libya

Libya has gone from a severe risk to a risk country with a score of 3.5, from 2.8 in 2020. All indicators have shown an increase, according to the World Bank Indicators.

Countries that went from No Data to Low Risk

Guam

Guam has gone from no data country to a low-risk country with an overall score of 80.0 in 2021, according to the World Bank Indicators

American Samoa

American Samoa has gone from no data country to a low-risk country with an overall score of 82.5 in 2021, according to the World Bank Indicators.
