Sustainability at Boozt

Boozt Care-For Strategy

Boozt's vision is to use our local Nordic position and our technology platforms to make sustainable choices easy for our customers and our partners.

Our Care-For strategy is our roadmap to becoming the leading responsible e-commerce company in the Nordics, using our business as a catalyst for change. Boozt's efforts are focused on four dimensions Environment, Employees, Community and Governance, further divided into twelve goals. Each goal includes relevant targets to take responsibility for our direct and indirect impact on the value chain while empowering people to act consciously.

The Made With Care shop takes a central role in achieving our Goal 3 (Driving Responsible Production), Goal 7 (Empowering Customers), Goal 8 (Engaging with Suppliers) and Goal 11 (Mitigating Risks).

Sustainability at Boozt

Boozt Made With Care shop

Created in May 2021, our Made With Care shop combines all products that meet Boozt Made With Care Criteria (the present document) and/or are made by B-Corp brands.

At Boozt, it is crucial that this shop represents a systemic change in manufacturing patterns that challenges current practices in the hope to limit the socio-environmental impact of manufacturing. Therefore, to ensure a reliable, and transparent assortment we rely on globally recognized third-party certifications, as well as extensive data collection.

Textile, Footwear and Leather Goods Criteria Overview

To be featured in the Boozt Made With Care shop, a product needs to prove that its environmental and social impacts are closely monitored. All environmental and social claims need to be backed up by third party certifications.

We accept textile and leather goods in the Made With Care shop when:
Products are made of ≥50% certified material including recycled or organic certifications, among others.

We accept footwear in the Made With Care shop when:
Products' upper or outsole materials are made of ≥80% certified material including recycled or organic certifications, among others.

(More details in 2. Environmental Criteria)

We accept textile, footwear and leather goods in the Made With Care shop when their Tier 1¹ manufacturing is:

In low-risk countries.

In risk countries with third-party social audits.

(More details in 3. Social Criteria)

¹ Tier 1: Cut/Sew/Manufacturing

Environmental criteria

Why are we requesting this data?

Raw material extraction accounts for an important share of the environmental impact of a product. Therefore, choosing better alternatives to conventional materials, such as virgin materials, plays a central role in reducing the environmental impacts of textiles, leather goods and footwear.

At the same time, we would like to discourage blends, as most blends are hard to recycle, and will therefore have a greater impact in the end user phase, even if compliant with the below criteria.

What is the criteria based upon?

Textile and leather goods made from at least 50% material composition from more responsible origins (certified, recycled, or sourced responsibly), and footwear made of at least 80% material composition from more responsible origins will be eligible for the Made With Care shop.

Animal Sourced Materials
(Silk, Wool, Cashmere, Down & Feathers, Leather etc.)

Cellulosic Materials
(Cotton, Linen, Hemp, Ramie etc.)

Man-made materials
(Polyester, Nylon, Viscose, Modal etc.)

Social Criteria

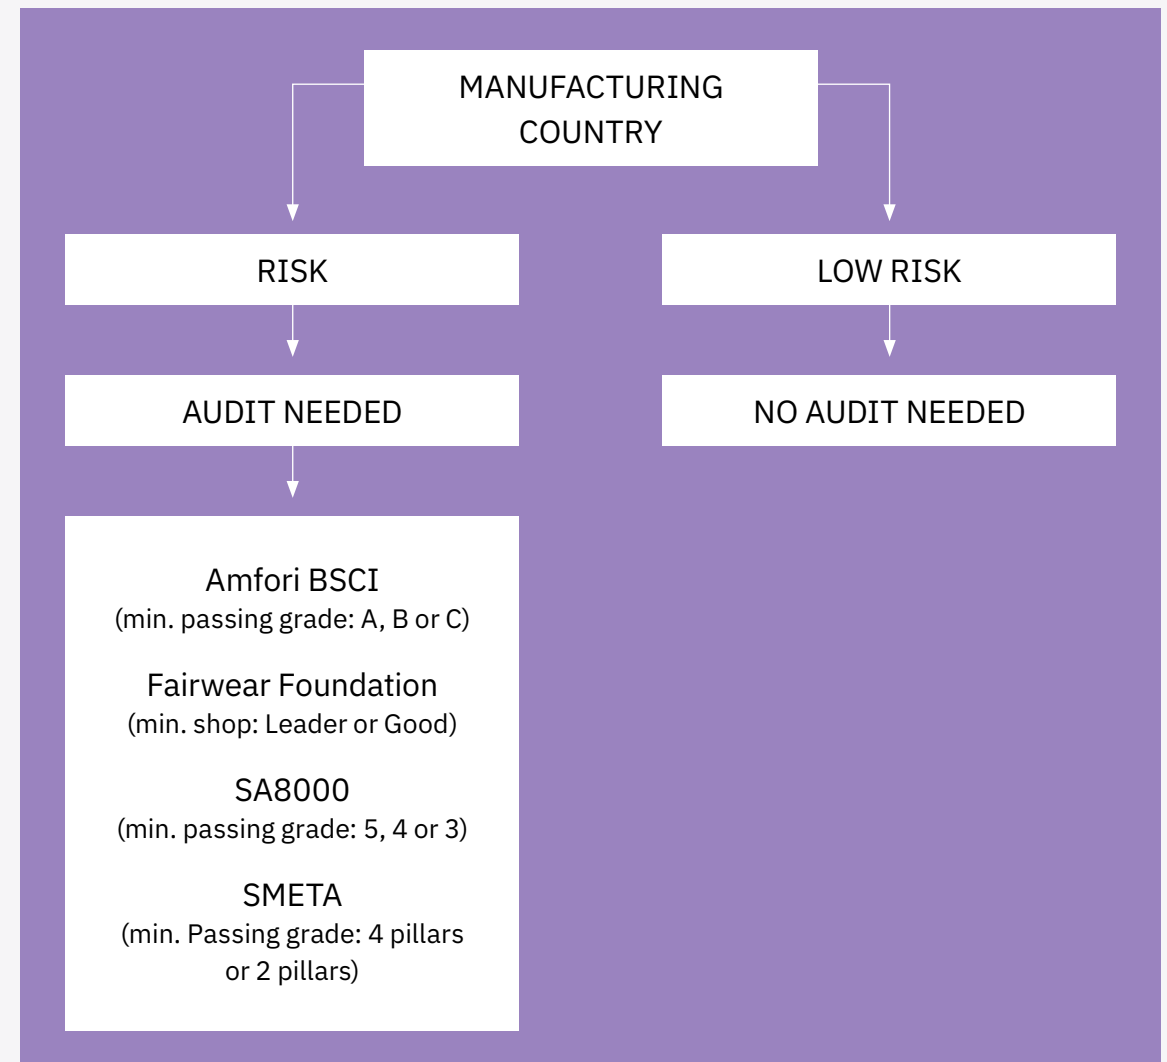

Why are we requesting this data?

It is important for us to ensure that garment makers throughout the supply chain have the following rights and treatments (this list contains the core labour rights, identified in amfori BSCI Code of Conduct, drawing on ILO, UN and OECD standards):

- Occupational health and safety (OHS)
- Special protection for young workers
- No bonded labor
- Ethical business behavior
- No discrimination
- Decent working hours
- No child labour
- No precarious employment

What is the criteria based upon?

The social requirements focus on the risk classification of the manufacturing country, whether it is considered a risk or low risk country, as per amfori BSCI “Countries Risk Classification 2022”.

Contact

At Boozt, we believe in the power of collaboration to bring out meaningful change towards better production and consumption practices.

We, therefore, invite you to shape Boozt Made With Care criteria by sharing your knowledge and expertise, as well as certifications or materials not mentioned in the document to strive together for a better future, industry-wide.
